ETHER – Responsive Creative Business Portfolio

INTRODUCTION

Thank you for purchasing my theme, if you have any questions that require answering but are not located in this help file, feel free to message me via the contact form on my user page - <http://themeforest.net/user/Joshsomers>. Thank you.

FEATURES

- Bootstrap 3.0 Grid
- Responsive Designs
- Light and Dark Versions
- Google Fonts
- Timeless Design
- Easy Customisability
- Organised and Grouped Layers
- Widespread Compatibility

1 DESIGN

This design is a very strong setup for a business portfolio. The layers are structured in easy to manage groups, making accessibility and customisability simple.

ETHER PSD is a high quality One Page portfolio design; it's spacious, timeless and has an adaptable colour scheme; sure to fit broader purposes and ideas.

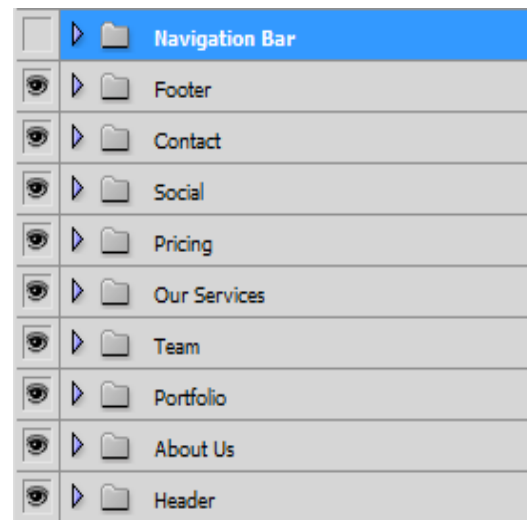

1.1 LIST OF DESIGNS INCLUDED

1. EtherDark_desktop.psd – Dark Desktop Design
2. EtherDark_mobile.psd – Dark Mobile Design
3. EtherLight_desktop.psd – Light Desktop Design
4. EtherLight_mobile.psd – Light Mobile Design

5. Bloglight.psd – Light Blog Design
6. Blogdark.psd – Dark Blog Design
7. Portfoliopopup – Light Portfolio (Expanded)
8. Portfoliopopupdark – Dark Portfolio (Expanded)

2 GENERAL NOTES

- All layers have been grouped into their respective categories, Most have similar structure.
- The mobile design has a hidden group, Navigation. Revealing it will show the navigation design.

3 DESIGN GUIDELINES

3.1 SECTION SPACING

Vertical spacing between sections on the desktop version is 100px high; on the mobile version it's 50px high.

3.2 GRID

This design uses the Bootstrap 3 1170 Design grid. 12 Columns. The phone design is designed on a 320px grid also in guidelines to Bootstrap 3.

3.3 CHANGING THE BANNERS

To change banner images, you can mask your image onto the “Background” shape layer in the Header group folder. The banner can be darkened by changing the colour of the shape to black, and then decreasing the opacity on the masked image. If you place your image underneath the Pattern Overlay layer, it will have the pattern masked over it. You can hide this if you do not want this effect.

3.4 CHANGING THE DEVICE PICTURE

In the group of your desired device picture, you can double click the layer called “PUT YOUR IMAGE HERE”, double clicking this will open a .psb file that you can edit and replace the picture within.

4 TYPOGRAPHY

FONTS USED

Raleway & Roboto

5 RESOURCES USED
